XXL® Razor Flat

Extremely flat DVB T2 antenna with excellent reception properties and power supply via USB

The extremely flat XXL Razor Flat DVB-T2 antenna is equipped with a particularly high-performance receiver unit, enabling it to receive HD signals without restriction and free of artifacts. Thanks to its slim design and an extra-long 3.6 m supply cable, the Oehlbach antenna provides for flexible set-up options and can also be fitted to the wall without any difficulty. The power supply via USB interface is also particularly practical - connected directly to the PC or TV, the XXL Razor Flat does not need any additional power connection.

Available from february
