Falcon Sub

Wireless subwoofer extender for loss-free wireless transmission of a subwoofer signal

The Falcon Sub Wireless Subwoofer Extender allows loss-free wireless transmission of a subwoofer signal at a range of up to 15 m, providing a high degree of flexibility for the subwoofer set-up location. The transfer in the 2.4 GHz wifi range enables extremely low latency of less than 20 ms and ensures high connection stability. Absolutely precise signal transmission guarantees clean, highly-detailed, finely structured reproduction with no ground loops. The compact device has low power consumption and also features an auto-standby function.

Features

- ✓ High-quality transmission with a pure sound
- ✓ loss-free signal transmission
- ✓ Many diverse setup options and flexible use
- ✓ Low power consumption
- ✓ Wireless transmission of a subwoofer signal
- ✓ No ground loops
- ✓ Auto stand-by

Technical Data

Frequency range	WiFi - 2,4 GHz Band
Weight	0,388 kg
Latency	< 20ms
Audio format	48 kHz / 16 Bit
Permissible relative humidity:	5 - 95 %
Temperature range:	5°C-50°C
Range:	up to 15m

Designation	Art. No.	Unit	Colour
Falcon Sub	6077	1 Set	black
