

## SUB-8

The Challenger SUB-8 is a powerful, compact, heavy duty active subwoofer with a quick response. Despite the small size the SUB-8 packs a big punch and thanks to the well-built cabinet the vibrations are kept to a minimum. With a sealed cabinet design the SUB-8 is easy to place within a room, and the three choices of inputs makes it compatible with any type of amplifier.

Features	Volume, 0/180 phase, Auto-on
Dimensions (WxHxD) mm	290 x 290 x 290
Weight kg	9
Finish	Available in Black, Oak, White

**Sealed enclosure** – A sealed enclosure with front-firing driver makes the subwoofer easy to place in a room.

**Input diversity** – By having both RCA and LFE inputs you make sure that your subwoofer can be connected to your subwoofer output on your amplifier. If you do not have a dedicated output you can connect the SUB-8 to your system with the high-level connectors.

**Class A/B amplifier** – Combining Class A and B amplifier circuitry results in a high-power efficiency and low distortion.

**Auto ON** – By enabling the Auto-ON function the subwoofer automatically starts and goes back to standby depending on an active signal.

**Low pass filter** – Adjust the frequency level to better fit you setup and listening preferences.

**In the box** – The SUB-8 subwoofer includes a slim type front grille, and 4 x shock absorbing rubber feet.
