

Dynavoice Magic LCR-4

The Magic LCR-4 is a unique model designed to be as versatile as possible. LCR stands for Left, Centre, Right – meaning that this model can act as both centre speaker, bookshelf speakers, front speakers or surround speakers. If you lack the space for a traditional home theatre system you can build your complete 5.0 setup with LCR-4. The brackets on the back lets you mount them horizontal or vertical, and the countersink gold plated terminal leaves them tight against the wall.
